

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## OSSIAM EUROPE ESG MACHINE LEARNING (UCITS ETF 1C (EUR) ISIN: LU0599612842) a sub-fund of OSSIAM LUX SICAV

Management Company: Ossiam, part of the Natixis group of companies

### Objectives and Investment Policy

#### Investment objective:

The investment objective of OSSIAM EUROPE ESG MACHINE LEARNING (the "Fund") is to deliver the net total return of a selection of equities which are listed in Europe.

The Fund is actively managed and will only use its benchmark, the Solactive Europe 600 Index NTR (the "Benchmark") for performance and carbon emission comparison purposes. The Fund's portfolio composition is therefore not constrained by the Benchmark and may deviate significantly from the Benchmark's constituents.

#### Investment policy:

In order to achieve its investment objective, the Fund can use total return swaps with the objective of delivering synthetically the performance of a portfolio of equities which are selected and weighted as detailed under the Investment Strategy. This method implies a counterparty risk as described in the below Risk and Reward Profile. The net asset value per share of the Fund will therefore increase (or decrease) according to the evolution of the portfolio of equities. The counterparty to the swaps will be a first-class financial institution that specialises in this type of transaction. The Fund may also enter into multiple swap agreements with multiple swap counterparties with the same characteristics as previously described.

Alternatively, the Fund can invest directly in all or part of the equity securities which are selected by applying the Investment Strategy.

In any case, the Fund will be invested in for a minimum of 75% in equities or rights issued by companies having their registered office in the European Economic Area, excluding Liechtenstein.

In addition, and on an ancillary basis, the Fund may use other derivatives for hedging and investment purposes as described under "Use of Derivatives, Special Investment and Hedging Techniques" in the Prospectus. The Reference Currency of the Fund is the Euro.

#### Investment strategy:

The Management Company uses a quantitative model which implements a rule based approach that aims to assess large and mid-cap equities from developed

markets based on financial data and ESG (Environment, Social, Governance) ratings.

The model first applies an Ethical Filter (as defined in the Prospectus) to exclude securities that *inter alia* are in breach of the 10 principles of the UN Global Compact or have significant operations in coal industries.

Securities which pass the Ethical Filter are then further screened by the Management Company's model using both ESG and financial data.

The Management Company then uses an optimisation procedure to determine the weights of the equities selected by the quantitative model, so that the portfolio complies with a number of constraints including a reduction by 40% of the total greenhouse gas emissions and the potential greenhouse emissions from reserves of the portfolio compared to the Benchmark and an ESG rating of the portfolio at least 10% higher than that of the Benchmark.

In certain market conditions, it may be impossible to perform the weighting optimisation while complying exactly with all the constraints. In such circumstances, the Management Company can proportionately reduce some of the constraints.

For a detailed description of the investment strategy (including the Fund's ESG strategy), please refer to section "Investment Strategy" in the relevant Fund appendix of the Prospectus.

The UCITS ETF 1C (EUR) shares are listed for trading on one or more stock exchanges and investors may buy or sell Shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day or, through a fund platform. Please contact your broker for additional information. The UCITS ETF 1C (EUR) Share Class is an accumulating Share Class therefore income derived from the Fund is reinvested. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of shares" and the section entitled « Practical information » of the Fund appendix in the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

### Risk and Reward Profile

The Share Class is ranked 5 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience significant volatility, as expressed by the rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

#### Special Risk Considerations

**Market Risk:** The value of the Fund's Shares is linked to equities, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the strategy of the Fund will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.

**Derivative and counterparty risk:** Funds may enter into listed and unlisted derivative contracts in order to have an exposure to underlying assets or to protect their direct assets. Payments on these contracts vary with changes of the value of the underlying assets. These contracts may cause the Funds to have a higher market exposure than they would have otherwise, which may in some cases increase losses.

**ESG Risk:** There is a risk that ESG investments may underperform the broad market. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there is a risk that the Management Company incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in/from the portfolio of a Fund.

Please refer to the section entitled "General risk considerations" of the Prospectus for additional details on risks.

## Charges for this Share Class

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-Off charges taken before or after you invest

|                     |   |
|---------------------|---|
| <b>Entry Charge</b> | Maximum Sales Charge 3,00%<br>Maximum Charge for Subscriptions payable to the Fund 1,00%    |
| <b>Exit Charge</b>  | Maximum Redemption Charge 3.00%<br>Maximum Charge for Redemptions payable to the Fund 1,00% |

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing Charges: 0.65% p.a.

### Charges taken from the Fund under certain specific conditions:

Performance Fee: None

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.\*

\*An additional levy up to 2.00% may be applied to an investor engaging in excessive trading or market timing practices.

The **ongoing charges** figure is based on expenses for the year ending December 2020. This figure may vary from year to year. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the SICAV when buying or selling units in another collective investment undertaking.

**For more information about charges, please refer to chapters “Charges and Expenses” and “Subscription, transfer, conversion and redemption of shares” of the Fund’s Prospectus, which is available at [www.ossiam.com](http://www.ossiam.com).**

## Past Performance

Past performance is not a reliable indicator of future performance.

**This bar chart shows the performance of the UCITS ETF 1C (EUR) Share Class in its currency of quotation, net of ongoing charges and excluding entry or exit charges.**

Date of creation of the Fund: 21 June 2011

Date of creation of Share Class: 3 February 2012

The Fund was, up until 21/05/2021, a passively managed UCITS ETF tracking the iSTOXX® Europe Minimum Variance Index Net Return (the “Index”). The bar chart opposite reflects the performance of the Fund on the one hand and of the Index on the other hand. It will reflect the performance of the Benchmark (instead of the Index) when the same becomes available for the period covering 22/05/2021 (when the Fund became actively managed) and beyond.
